PROJECT SYNOPSIS

ROLL No. 2109805

NAME: JAGRUT GALA
CLASS: TYBSc CS
ROLL No: 2109805

PROJECT GUIDE: SHEIKH MOHAMMAD BILAL N

Project Synopsis: Brick Breaker Game

Why?

Classic Breakout games are fun and one the most played games in the 90's. Who doesn't love playing this old school game. Brick Breaker get more exciting and more challenging as it comes new twists as it changes the strategy, gameplay and is more fun playing and sharing with friends. If you feel the twists are less you may add your own fun levels.

What?

This is a spin-off on classic Breakout Game, where the paddle is put into a circular path and gradually shrink as it collides with ball.

The player can play the built-in levels or create their own custom levels and share them with their friends or import and play the levels shared by their friends.

Features?

- Inbuilt levels.
- Powers up.
- A feature to create custom levels.

How?

This is a game made using python3.9

Languages: python

Library: pygame, pymunk
